

# Jiayi (Jessie) Tong

---

423 Guardian Drive, Philadelphia, PA 19104  
Jiayi.Tong@pennmedicine.upenn.edu; (858)-249-8559

## Education & Professional Experiences

- ***Ph.D. in Biostatistics, Sep 2019 - present***  
Department of Biostatistics, Epidemiology and Informatics  
Perelman School of Medicine at the University of Pennsylvania  
*Advisor:* Dr. Yong Chen
- ***M.S. in Biostatistics, Sep 2019 - June 2021***  
Department of Biostatistics, Epidemiology and Informatics  
Perelman School of Medicine at the University of Pennsylvania  
*Advisors:* Dr. Yong Chen, Dr. Adam Cuker
- ***Research Assistant, Oct 2017 - May 2019***  
Department of Biostatistics, Epidemiology and Informatics  
Perelman School of Medicine at the University of Pennsylvania  
*Advisor:* Dr. Yong Chen
- ***B.S. with High Honors in Applied Mathematics, Sep 2014 - June 2017***  
Cum Laude  
University of California, San Diego  
*Thesis title:* Strongly Correlated Band Random Matrices  
*Thesis paper:* Random Matrices with Blocks of Intermediate Scale: Strongly Correlated Band Random Matrices  
*Advisor:* Dr. Todd Kemp

## Awards & Honors

- ***ASA Philadelphia Chapter Exceptional Achievement Award for Graduate Students (2022)***  
American Statistical Association (ASA) Philadelphia Chapter
- ***Award for Outstanding Data Science Communication and Innovation (2021)***  
OptumLabs UnitedHealth Group, Minnetonka
- ***Department Honors in Mathematics (Applied) with High Distinction (2017)***  
[https://math.ucsd.edu/\\_files/undergraduate/honors-program/honors-program-presentations/2016-2017/Jiayi\\_Tong\\_Honors\\_Thesis.pdf](https://math.ucsd.edu/_files/undergraduate/honors-program/honors-program-presentations/2016-2017/Jiayi_Tong_Honors_Thesis.pdf)  
University of California, San Diego
- ***Honor society: Phi Beta Kappa (2017)***  
University of California, San Diego
- ***Provost's Honors (2015, 2016, 2017)***  
University of California, San Diego

## Publications

### Published

## Poster Presentations

12. **Tong, J.**, Duan, R., Liu, Y., Hong, C., Chi, K., and Chen, Y. (2018) A Comprehensive Toolbox for Advanced Meta-analysis, **2018 DBEI & CCEB Research Day**, University of Pennsylvania, Philadelphia April 2018.

## Research/Job Experiences

### 1. *Data Scientist and Research Graduate Intern*

*OptumLabs Unitedhealth Group*

*Advisors: Dr. Natalie Sheils, Dr. Nazmul Islam*

*Jun 2021 - Aug 2021*

*Minnetonka, MN*

- Research on two commonly used relative measures in biomedical and epidemiologic research studies: odds ratio and relative risk.

- Investigated the difference between two measures through simulation study with a wide spectrum of settings and use cases with real-world claims data from UnitedHealth Group database.
2. **Research Assistant**  
*The Perelman School of Medicine, University of Pennsylvania* *Oct 2017 - Present*  
*Advisor: Dr. Yong Chen* *Philadelphia, PA*
- Statistical methodology development: worked with collaborators and developed an augmented method to handle misclassified phenotype in EHR data to improve reproducibility in EHR-based findings; applied the augmented method to multiple datasets.
  - Applied projects: applied a pairwise likelihood model to Keep it Off study, a three-arm randomized controlled trial study to analyze weight loss data that could be potentially missing not at random; applied semiparametric proportional likelihood ratio model to analyze the length of hospitalization with data from Penn ICU.
  - Collaborative projects: collaborated concurrently on multiple projects, including post-marketing pharmacovigilance study (e.g., vaccine safety) with medical informaticians from UThHealth and meta-analysis with physicians from Penn Medicine.
  - Web and module development: built and added interactive online meta-analysis module to *XMETA* (<https://www.xmeta.org/>), which is aimed to assist the doctors without prior programming experience to conduct meta-analyses.
3. **Independent Undergraduate Research** *Jun 2017 - present*  
*Department of Mathematics, UC San Diego* *La Jolla, CA*
- Research on “Forecasting Stock Prices by Fuzzy Support Vector Machines”.
  - Used time-series model analysis in R to study the trending of stock prices; selected technical indicators with machine learning methods for stock prices prediction.
4. **Research Assistant**  
*Department of Mathematics, UC San Diego* *Sep 2016 - Jun 2017*  
*Advisor: Dr. Todd Kmep* *La Jolla, CA*
- Designed “Maximally Correlated Band Random Matrices”; performed simulations using different distributed entries and investigated the pattern of the eigenvalues.
  - Proposed and proved eigenvalue pattern with Wick’s Theorem and the method of matrix moment.
  - Wrote thesis paper “Random Matrices with Blocks of Intermediate Scale Strongly Correlated Band Matrices”, which was awarded High Distinction Honors.
5. **Summer Research Assistant**  
*Department of Mathematics, UC San Diego* *Jun 2016 - Sep 2016*  
*Advisor: Dr. Todd Kemp* *La Jolla, CA*
- Worked on random matrices with blocks whose entries are highly correlated; performed simulations and investigated the pattern of random matrices’ eigenvalues.
  - Tested and computed scalings of entries; performed normalization of random matrices; gave proof of the scalings which contribute to the convergence; led the weekly discussion and developed random matrices with new structure and distribution of correlated entries.

6. **Research Assistant**

*Department of Political Science, UC San Diego*

*Advisor: Dr. Erik Gartzke*

*Sep 2015 - Apr 2016*

*La Jolla, CA*

- Prepared and cleaned data of U.S. territories and possessions and foreign oversea area of the 1960s to the 1980s for research about Democratic Peace.

## Teaching Experience

1. **Teaching Assistant**

*BSTA 754: Advanced Survival Analysis*

*Nov 2021 - Present*

*Philadelphia, PA*

2. **Teaching Assistant**

*BSTA 656: Longitudinal Data Analysis*

*Sep 2021 - Nov 2021*

*Philadelphia, PA*

3. **Teaching Assistant**

*BSTA 660: Design of Observational Studies*

*Nov 2020 - Dec 2020*

*Philadelphia, PA*

4. **Teaching Assistant**

*BSTA 661: Design Of Interventional Studies*

*Sep 2020 - Nov 2020*

*Philadelphia, PA*

## Professional Activities & Services

1. **Reviewer of Pacific Symposium on Biocomputing (PSB) 2022**

2. **Reviewer of American Medical Informatics Association (AMIA) Annual Symposium, 2019, 2020, 2021**

3. **4th Annual Summer Institute in Statistics for Big Data (SISBID)**

## Computing Skills

- R, Matlab, Python, Java, SQL
